Local Land Charges searches

- The Infrastructure Act 2015 became law in February 2015 and H M Land Registry ("HMLR") now hold a composite register for England and Wales. They are the sole provider of LLC1 official search results.
- Local authorities now only deal with the more complicated CON29 questions and are responsible for maintaining the composite register.
- The Council is responsible for the registration of all those items raised by East Cambridgeshire District Council departments, and it remains the Council's statutory function to make sure it is correct. The HMLR just use the information provided by the Council from the composite register.
- The Council's Local Land Charges team is both an originating authority and a registering authority on behalf of Cambridgeshire County Council, Anglian Water,

Historic England and other statutory undertakers. In practice this means the statutory undertakers makes a request to the Council to register such matters as highways documents, listed buildings/ancient monuments and other legal documents which must be registered as a local land charge against a property.

• As part of the exercise with HMLR, the Council received a new burdens payment which was ring fenced for improvements to the Local Land Charges services. This has been utilised by upgrading systems and software to enable the service to be fully digitised. This went fully live in January 2025 after rigorous testing.

Monitoring Officer

- the Director Legal also acts as the Council's Monitoring Officer, which is a statutory role under the Local Government and Housing Act 1989 and is also a member of the Council's Corporate Management Team
- as Monitoring Officer, the Director Legal provides advice and training to members, parish councils, advice to members on the Member Code of Conduct, Ethical Governance, member interests, investigations into complaints against Members under the Member Code of Conduct and any subsequent determinations and attends committee meetings to provide advice as necessary
